GitHub Profile Achievements 🏆

A collection listing all Achievements available on the GitHub profile.

Following the launch of the first Mars Helicopter, [Ingenuity](#), GitHub [announced](#) the new Achievements section:

We are also using this opportunity to introduce a new Achievements section to the GitHub profile. Right now, Achievements include the Mars 2020 Helicopter Mission badge, the [Arctic Code Vault](#) badge, and a badge for sponsoring open source work via [GitHub Sponsors](#).

This repository attempts to list them all.

2022-06-09: GitHub [announced more Achievements](#), but without specific criteria. If you see something not listed here or is incorrect, please open an issue :)

Don't like the Achievements? [Here](#) is how to disable them. [Direct link to the setting for your convenience](#).

Official list

There ~~is~~ was an official list available in the GitHub Docs at <https://docs.github.com/en/account-and-profile/setting-up-and-managing-your-github-profile/customizing-your-profile/personalizing-your-profile#displaying-badges-on-your-profile> (link to the archived version).

There is still a section which includes specifics on how badges were/are awarded, e.g. which [repositories and versions qualified for the Mars 2020 Helicopter Contributor](#).

~~Consider this repository a mirror, maybe in the future with historic purpose. Unless there will be an official list again, this is it.~~

Highlights

The Highlights section below the Achievements including the corresponding badges is currently [best documented in the official GitHub docs](#).

Previous versions

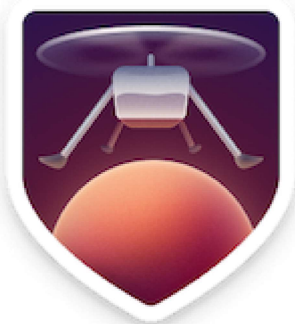

2021-04-19 - 2022-06-09

From the [start with Ingenuity on 2021-04-19](#) until the [additions on 2022-06-09](#), the first three Achievements had slightly different designs and names. In other words, they were overhauled on 2022-06-09.

- GitHub Sponsor
- + Public Sponsor
- Mars 2020 Helicopter Contributor
- + Mars 2020 Contributor

Here are the old designs and names:
